Higher PE - B

National 5 Maths – B

National 5 Media Studies – B

National 5 Engineering Science – C

National 5 English – C

National 4 French

National 4 Modern Studies

National 4 Business Management

HOBBYS & INTERESTS

I enjoyed making YouTube videos in my spare time and focusing on all the nerdy aspects such as search engine optimisation and making sure my video with few mistakes in it. I took great pride in my videos being funny and of the highest quality, even to the point of not releasing videos that did not meet my standards.

Video games are another big interest. I enjoy a range of titles from sports to Real Time Strategy and Turn Based Strategy games, I also really enjoy fantasy RPGs. My favourite types of games are games where I can be technical and tactical about my approach to the problem and I'm not really interested in the ones where you just run around with guns like battlefield and Call of Duty.

I enjoy listening to music and was involved in organising a music competition at my school which I also performed in playing the bass.

I hosted online quiz nights for groups of friends during lockdown.

I am a fan of regularly watching football and Rugby. I played rugby for Boroughmuir High School.

I enjoy film and television. I very much enjoy Sci-fi films and TV shows such as Star Wars, Star Trek, Alien, Blade Runner and Marvel. I also enjoy learning about the technical side of film making as I enjoy video editing in my spare time. It is interesting to learn how and why a scene was shot in a certain way.
